

Tripartite

Colorectal Meeting

Cairns Australia

held in conjunction with the Australian Association of Stomal Therapy Nurses (AASTN) Conference

The 2011 Tripartite Colorectal Meeting is being held in Cairns, Queensland, Australia, 3-7 July.

The conference aims to foster collegiality and goodwill through the pursuit of excellence in clinical endeavour and science in the discipline of colon and rectal surgery across the Tripartite of USA, UK and Australia & New Zealand, and our neighbouring nations. All interested professionals are welcome.

Tropical North Queensland in Australia is a holiday maker's paradise, bursting at the seams with attractions and tours that showcase this remarkable part of the world. Cairns attractions rank as some of the most original and exciting in Australia. Golden sunny beaches flanked by pristine rainforest and the Great Barrier Reef make Cairns a region that literally has it all! Friendly locals provide a setting for exploration and fun that very few other places in the world can offer.

We look forward to seeing you in Cairns.

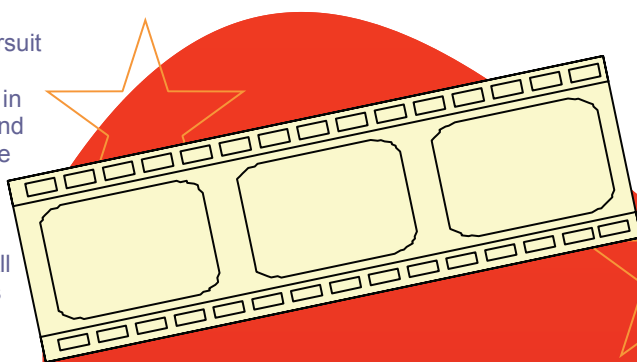

Bruce P Waxman
Conference Convenor
Director of Colorectal Surgery, Southern Health, VIC, Australia
